Tribal power

Use the best marketing minds and these plays to change your growth trajectory fast. Flex in, up and out easily with a strong CMO talent provider in your PE toolkit.

With 60+ CMO assets available on a fractional, program-specific or special project basis, we bring you instant senior talent, in your space, with a rich marketing playbook and unmatched tribal power.

Who we are

We're experienced growth executives.

CMOs who bring a market-based perspective to your company's team, collaborate to crystalize the value creation strategy, then implement the growth vision—all at a fraction of the cost of a full-time CMO. All our CMOs are dedicated members of our firm and have held the position of vice president of marketing or higher at one or more operating companies.

Quick access to executive firepower.

Chief Outsiders allows you to instantly add C-level experience to your portfolio company on a part-time, interim basis. Within a week, we are moving quickly to assess company needs and the existing talent base, then making recommendations for immediate actions to move forward.

The difference between strategy and execution.

There is a vast difference between the skills required to unlock value through insight, strategy, and evaluation compared to what is needed for ongoing execution. CMOs who are good problem solvers and builders may not be optimal for day-to-day operational execution. We get you the strategic CMO when you need it – then we help identify the correct mix of skills and service needed for ongoing operational excellence to continue value and growth.

When you hire one, you benefit from all.

Once you engage a Chief Outsiders outsourced CMO, you gain benefits from our entire tribe of experienced executives, further lowering risks while increasing value. Our CMOs have backgrounds in technology, manufacturing, software, retail, finance, product development, healthcare, and more.
